

Leon van Tonder

Managing Director

Leon van Tonder graduated from the University of Pretoria in 1983 with a BEng (Electronics) Cum Laude. After two years military service he entered employment at Kentron in 1986. He completed his BEng Honours (Electronics) in 1987.

In 1997 he left Kentron to pursue the establishment of Kreon Technology.

At Kentron he gained vast experience by executing numerous projects ranging from Analogue design (high performance Voltage – Frequency converters), Digital Hardware – and Embedded Software Design (navigation computers), Algorithm development (Radar and Image processing) and System Engineering.

Apart from his Managing Director duties Leon also acts as a mentor for the System Engineering and Algorithm development within KREON.

Leon can be contacted on leon@kreon.co.za
